

Self Builders Get Smart with Simply Automate!

At this year's Smart Home Show Simply Automate will be demonstrating its brand new answer to home control, Smart House®. Ideal for self builders wishing to incorporate smart home technology into their properties, Smart House® is a fully flexible home control solution.

The Smart House® system gives you the option of integrating up to 10 different modules of products into a comprehensive home control system, therefore allowing you to tailor the system to the exact requirements of each individual property. With Smart House® self builders and developers can now get a fully integrated home control system, providing superb lighting control, integrated security, internet CCTV, multi room audio and automated window dressings for around £6,000!

“Smart House® is a modular and fully flexible solution that brings together a number of innovative technologies aimed at making life more comfortable, more secure, more flexible and more efficient,” says Simply Automate's Managing Director Darryl Mattocks. “With Smart House® the possibilities are endless. The beauty of the system is that it can be tailored to meet the specific needs of the site, from a simple lighting solution through to a fully automated home control system.”

From a basic introduction in Smart Home technology, to the more sophisticated applications of fully integrated Smart Home systems, the experts at Simply Automate will give you the products, tools, training and knowledge to guide you effortlessly through the maze of products and applications available. To find out more about what home automation can do for you and your business, join the Simply Automate team on stand 2416 at this year's Smart Home Show.

Simply Automate is the UK's leading smart home distributor, offering a wide and varied range of home management solutions. Simply Automate offers unparalleled technical help for all customers and has a next-working day delivery service. Beginning with free on-site consultancy and evaluation of the premises, to full installation and ongoing support, Simply Automate offers a comprehensive solution to the exciting but sometimes daunting world of smart home technology.
